OBJECTIVE

As a fresher, I want to get placed as a software developer to know about how the industry works and to contribute to the company in whatever way I can. After 5+ years of experience, I would like to have a team of my own to work with.

EDUCATION

SHNV HS SCHOOL

2017 - 2019

SSLC - 90.5 %

HSC - 71.5 %

KAMARAJ COLLEGE

2019 - 2023

Computer Science & Engineering

8.12 CGPA

SKILLS

C Programming

OOPs

Data Structures

EXPERIENCE

Smart India Hackathon

Team Leader

I got the opportunity to lead a group of 6 members and we are tasked to create a website about systematic farming which will be very useful for those who don't know about farming but willing to do it.

Mini Project

Individual

Created a simple project of restaurant billing system, which will be very useful for small restaurants or hotels to save their bills and keep it to analyse their day-to-day profit or loss or to find which food product is the most selling for the hotel.

Paper Presentation

Presented a paper on "Crop Yield Prediction" in an E-Conference held at Kamaraj College of Engineering and Technology.
