PROFESSIONAL SUMMARY

Results-driven Software Engineer with 3.5+ years of experience delivering full-stack web applications across 3 major projects in e-commerce, core banking, and Fin-tech domains. Contributed to 25+ production and client releases, owned a critical business module, and transitioned from Front-end Developer to Full-Stack Developer through self-driven learning. Proficient in Angular, Node.js, Node-RED, JavaScript, REST APIs, MongoDB, GraphQL, and .NET API integrations. Experienced in daily collaboration with international clients and adapting to dynamic project requirements while consistently meeting delivery commitments.

KEY ACHIEVEMENTS

- Owned and independently delivered the 'Orders' module for a large-scale e-commerce platform, one of the product's highest-impact business components.
- Contributed to 25+ production and client releases across 3 projects with zero post-release rollbacks on personally owned deliverables.
- Transitioned from Front-end Developer to Full-Stack Developer through entirely self-driven learning, unlocking opportunities in 2 additional client projects.
- Successfully delivered banking-domain solutions within a highly regulated enterprise environment, gaining expertise in core banking workflows, client-driven processes, compliance requirements, and business-critical application development.
- Collaborated daily with international clients across multiple project phases, consistently maintaining alignment and fast decision-making.
- Designed and implemented the end-to-end technical architecture for a Fin-tech application — approach and delivery received direct client recognition.

TECHNICAL SKILLS

Languages & Frameworks: Angular, JavaScript, TypeScript, Node-RED, Node.js, Express.js, HTML5, CSS3.

APIs & Data: REST APIs, GraphQL, MongoDB, PostgreSQL, PL/SQL, .NET API Integration.

Tools & Testing: Postman, Jasmine, Jest, Karma, Cypress, Git & Version Control.

State & Practices: RxJS, NgRx, CI/CD Pipelines, Agile Methodology, Scrum, AI-Assisted Development.

CORE COMPETENCIES

Full-Stack Web Development | REST API & GraphQL Development | Banking & Fin-tech Applications | Database Management | Solution Delivery & Deployment | Agile Software Development | Client Requirement Analysis | Stakeholder Engagement | Cross-Functional Collaboration.

WORK EXPERIENCE

Software Engineer

Feb 2023 – Present

Centizen Inc.

ZenBasket — E-Commerce Platform

Jun 2023 – Aug 2024

Centizen Inc. | Frontend Developer

- Owned and drove the end-to-end development of the Orders module — one of the platform's highest-impact business components — ensuring reliable feature delivery and module stability throughout the product lifecycle.
- Coordinated with 5+ cross-functional teams including back-end, QA, design, and business stakeholders to translate complex product requirements into production-ready features.
- Proactively self-initiated backend learning alongside front-end responsibilities, successfully expanding role to contribute to server-side development and demonstrating initiative beyond assigned scope.
- Executed thorough testing across Local, Development, UAT (India & US), and Production environments, maintaining application stability at every stage of the release cycle.
- Participated in 15+ production deployments with zero post-release rollbacks, ensuring consistent and reliable delivery across all release events.

Client Project — Banking Domain

Sep 2024 – Sep 2025

Centizen Inc. (International Core Banking Client) | Full-Stack Developer

- Transitioned into a Full-Stack Developer role by applying self-acquired backend skills, independently delivering frontend and server-side solutions while enhancing and maintaining legacy banking applications within a highly regulated environment.
- Completed multiple client releases within committed timelines, maintaining high delivery quality and minimal rework throughout the 12-month engagement.
- Demonstrated strong adaptability by responding effectively to frequent client requirement changes while sustaining delivery momentum and quality standards.
- Operated within strict banking-industry environments, adhering to client-specific operational standards, access controls, and compliance processes.
- Maintained close and proactive alignment with client stakeholders to ensure all delivered solutions addressed real business needs and met evolving expectations.

Client Project — Fintech Application

Oct 2025 – Present

Centizen Inc. (International Fin-Tech Client) | Full-Stack Developer

- Independently architected the end-to-end technical design for the application and received direct client recognition for the solution approach, implementation quality, and on-schedule delivery.
- Developed the Angular front-end and integrated it with a client-provided .NET back-end, implementing and validating all API communication using Bruno for structured API testing.
- Managed data operations using PL/SQL, writing and optimising queries to ensure data integrity and consistent application performance across the system.
- Attended daily stand-up calls with international clients throughout multiple project phases to review progress, clarify requirements, and resolve blockers — ensuring continuous alignment and fast decision-making.
- Applied AI-assisted development tools including Copilot, Antigravity, and Claude AI to accelerate development cycles, improve code quality, and research optimal technical solutions.
- Consistently delivered all project milestones on schedule, contributing to strong client satisfaction outcomes across the engagement.

AWARDS & RECOGNITION

Eye of an Eagle Award — Centizen Inc.

Recognized for exceptional attention to detail, proactive problem-solving, and the ability to identify and resolve critical issues early in the development lifecycle.

Duty Bound Award — Centizen Inc.

Recognized for dedication, ownership, and commitment to delivering high-quality solutions while consistently meeting project expectations.

Mr. Perfect Award — Centizen Inc.

Awarded for consistent performance, technical excellence, attention to quality, and timely delivery of client-focused solutions.

CERTIFICATIONS

- AI Tools Workshop — Be10X: Hands-on workshop covering modern AI tools and productivity techniques for software development.
- Web Technology Webinar — Vortex: Participated in a technical webinar focused on modern web technologies and development practices.

EDUCATION

Bachelor of Engineering (B.E) — Computer Science and Engineering

Kamaraj College of Engineering and Technology | 2019 – 2023 | CGPA: 8.05

LANGUAGES

- English — Professional Working Proficiency
- Tamil — Native Proficiency
